

Evergreen Landcare

Environmental Policy Statement

EVERGREEN LANDCARE is committed to the principles of sustainability and responsible use of resources. EVERGREEN LANDCARE will endeavour to minimise its impact on the environment (“environmental footprint”) by:

- A. Having a company goal of improving our environmental performance and therefore reducing the environmental impact of our operations.
- B. Taking all practical steps to minimise the amount of materials consumed as part of our operations. Using re-use or recycled materials as much as practically possible.
- C. Minimising emissions.
- D. Ensuring our operations present no or low environmental risk.
- E. Minimising waste requiring disposal at landfills by disposing of waste responsibly.
- F. Eliminating unnecessary packaging - and using environmentally sound packaging materials.
- G. Complying with New Zealand legislation and regulations that apply to our activities
- H. Ensuring individual staff are aware of, and committed to, this environmental policy.
- I. Monitoring the application and effectiveness of this policy annually.
