

Evergreen Landcare

Specialised Plant and Resources

Evergreen Landcare has an extensive range of specialist resources that enable us to complete a variety of tasks and activities. This, combined with our broad technical skill set, gives us the flexibility to tackle the varied tasks required in providing a comprehensive maintenance service.

Premises

Our Head Office is at our Auckland base at 8 Margaret Williams Drive, Papakura. This comprises full office facilities, a well-equipped workshop, large storage shed for equipment and supplies, and plenty of yard space for parking equipment.

We will be opening a facility in the Silverdale/Warkworth region as part of our ongoing expansion in the greater Auckland market.

We also have office and workshop facilities in Hamilton, Rotorua, Wellington and Christchurch. This provides National spread but also provides additional resources when needed.

Plant & Equipment

Evergreen Land care's total fleet includes approximately 140 items of plant and equipment. This includes hydro seeding trucks, Bark Blowers, transport truck and trailers, Excavators, Skid Steers, light trucks, utility vehicles, tractors, tractor attachments, track machines, mowers and small landscaping equipment such as a kanga and digger.

Maintenance of fleet

To ensure reliability our fleet is regularly maintained by our own internal workshop division. however, with establishing a base in the north Auckland we will build new relationships with local companies that provide efficient, proven service allowing us to continue to maintain equipment to a high standard keeping disruptions in delivery to a minimum.
